Nancy/Rizgar,

Attached is the original Part A application dated November 1980. It appears this Part A and the corresponding ISD were rescinded in 1984 because I assume USEPA determine GNB operation was not regulated. Based on a letter to USEPA from Exide it appears that Exide was regulated after January 4, 1985, and Exide submitted another Part A Application to US EPA dated July 5, 1986 and the ISD was no longer rescinded.
